

re:SHELTER

- Agenda:** Temporary /self-built architecture sourced from charities and the public to address the issue of homelessness in Manchester. This installation, device or pavilion will be designed by the students with expertise from architects and charities to provide something useful, for the purpose of shelter, donation, sharing or outreach,
- Production:** Hands on building and carpentry techniques to create an effective and stimulating installation for the homeless.
- Mastercraft:** **Design process, 1:1 construction, upcycling and carpentry.**

STREET SUPPORT

Street support work collaboratively with a number of charities to source help, donations and resources, and all important time.

EMMAUS

Emmaus provides meaningful work for the previously homeless people who live and work at Emmaus, repurposing furniture and items and selling them in Mossley.

RENU

Working collaboratively with homeless shelter Barnabus and Enactus to help the homeless in Manchester. They run workshops upcycling and repurposing furniture to be sold.

CHARITY

We are working with a number of charities to make a useful contribution to the growing homelessness problem in Manchester.

Award winning architects based in Manchester, and have experience working with the homeless in Lincoln. They will be working with the students to generate ideas.
