

# 1 MERZ 7

RESIDENTIAL TRIP TO THE LAKE DISTRICT

As part of an ongoing collaboration between the MSA and the Littoral Arts Trust, we will learn about, retain, and celebrate the legacy of Kurt Schwitters at the Elterwater Merz Barn. Using the Dada art movement to expand our architectural vocabulary, we will produce conceptual proposals for new building developments upon the Merz Barn site, to be displayed as part of the barns 70th anniversary exhibition in July.

Responding to the breathtaking landscape of the Lake District, and the ad-hoc style of the Dada art movement, we will produce artistic and alternative architectural drawings and models in a variety of mediums, in response to the clients brief on site. This is a fantastic chance to work with a real client, partake in an external exhibition, and to produce architecture within a different disciplinary framework.
