

Re-Imagining the Manchester Town Hall

COORDINATORS

Victoria Adegoke MSAp
Annabel MacLeod CPU
Abi Patel MSAp
Stephanie Popescu CiA
Aimee Williams-King CiA

AGENDA

To deliver a Northern Soul Charrette which aims to bring together 13 Northern Schools of Architecture to explore the re-imagining of the Manchester Town Hall whilst the space undergoes a 7 year renovation period. This project will bring together mixed teams of students to network to create a variety of proposals of how the city might deal with the absence of a critical space for functions within the city of Manchester.

COLLABORATORS

Manchester City Council
RIBA
MSA
B.15 Workshop

PRODUCTION

To convene a charrette in the City of Manchester, where students in their groups will be invited to create proposals responding to the brief using the materials and equipment provided by your MSA EVENTS team. In the two days of 'EVENTS Week' leading up to the charrette, the team will be involved in ensuring that all measures are in place to make sure the day goes smoothly and that all members are aware of the day's schedule.

The charrette will take place on **Friday 20th April**. The remaining days of EVENTS will be used to create a showcase of the work produced during the charrette, through an exhibition held somewhere in the city, and a publication that allows the project to have a life after the EVENTS week is over and become a developing project during the 7 year renovation period of the Town Hall.

CRAFT

The Northern Soul charrette will introduce all team members to a range of key skills, such as project preparation and networking; essential to the success of a large scale project within the School of Architecture.
