

# WAX *in* FLUX

*[Discovery of shape, colour texture and enclosure]*

## PRODUCTION

The event involves a series of workshops of experimenting use of wax in different ways, to explore architecture. At the end of the event, we will exhibit a series of wax-form experimentation model. We aim for our exhibition to be displayed in one section of public area in Manchester School of Art

## AGENDA

Exploring the ability of chemical compound of wax; to sculpt and form architecture. Here we take wax as a form generator to deliver the idea in architectural development. The focus of the event is to seek form exploration through material behaviour of wax. This will experiment material behaviour in different conditions; liquid and solid through method of casting , water immersion & mixed media.

## COLLABORATORS

Manchester School of Art | Fine Art  
MMU Workshop Technician

CONCEPTUALIZE • VISUALIZE • MATERIALIZE
