

the
Beehive

AGENDA

Exciting design competition for the Beehive Community Hub between groups of 1st and 2nd year students.

Collaborating with a real client, we are looking to produce a meaningful outcome that will benefit the Levenshulme community. The students will produce designs that will re-appropriate the existing building through creative ideas to achieve a wide range of new activities.

PRODUCTION

Our final outputs for the project will include several interventions for the site. These will be developed in design groups for several points of adaption including:

- New Café
- Storage Solutions
- Porch
- Play Equipment.

Our final designs will be reviewed by the client, in order to inform an application for funding towards future completion.

MASTERCRAFT

Through this live project you will get the chance to engage with a real client and develop a wide range of skills including design, model making, and team-work.

COMMUNITY

The Beehive, Cringle Park, Levenshulme

COORDINATORS

Alexandra Sigley, Eva Nella, Karissa Tysklind and Petra Xynidou (Continuity in Architecture and Infrastructure Space).

RE-ADAPT
