

TO THE POINT

We are excited to announce our new collaborator for EVENTS 18

Centrepoint

Centrepoint is an organisation that supports homeless young people, aged 16-25, throughout the UK. By providing accommodation, health support and life skills to get them back into education, training and employment, Centrepoint supports up to 9200 young people every year.

Agenda

Despite our new collaborator, our agenda for EVENTS 18 remains true to our passion to support the homeless community in Greater Manchester. By working with Centrepoint, UK's leading charity for young people, it gives us the unique opportunity to support our fellow peers in need.

Project Brief

We would be working with Centrepoint to reimagine the atrium space at their office in Manchester. The atrium is a significant venue that hosts events such as Breakfast Drop-in Sessions for young people. We would work with the organisation, and listen to the needs of the young people, to develop an exciting new concept to reinvigorate the dated space. The atrium would reflect the energy and hope for the young people in need.
