

# SPECIAL COLLECTIONS **POP-UP** SHOP

## AGENDA

Part of Manchester Metropolitan All Saints Library is Special Collections that is situated on the 3rd floor. The collections are central to the artistic culture and teaching of the faculty and have been since its foundation as the Manchester School of Art in 1853.

It provides various exhibitions in rotation and an archive that features such things as 20th century international poster collections, various artist's, and previous student's work.

Special Collection team sells a small range of items to students such as books, prints and bookmarks. The team has called out for a group of architectural students to help Special Collections create a pop-up shop for the collections, in order for them to present their products better, with the adaptability to expand the range.

We are to design in groups a pop-up shop that can be easily transported, selling items around Library and University Campus with the help and guidance from Special Collections team.
