Ronald McDonald House Charities - Ronald McDonald House Manchester provides free 'home away from home' accommodation to families with children receiving treatment in the Royal Manchester Children's Hospital and St Mary's Neonatal Unit. Please visit www.rmhc.org.uk for more information.

Agenda

With the success of recent fundraising, RMH Manchester is undergoing development throughout both the home and landscaped areas. Our event proposes to aid in the conceptual re-design of the terrace, turning it into a garden of reflection for the residents. Through site visits and interaction with the appointed architects, the students will have the chance to work on a live architectural project, with their designs helping to influence the overall finished scheme.

Production

Split off into groups, the students will be asked to produce a detailed conceptual design of the new terrace. They will be asked to consider circulation and user groups, as well as architectural considerations in construction and materiality. The outputs for each group will involve a scaled physical model as well as a poster that clearly sets out their design proposals.
