

NORTH LIGHT

REIMAGINING
THE GAS TOWER

//EVENTS19 25.03.19 – 05.04.19

Northlight Gas Tower, Brierfield, Pendle

AGENDA

How can a disused gas tower be used as a temporary space to engage the community as part of the wider masterplan?

COLLABORATOR

Through collaboration with the non profit art organisation IN-SITU, workshops, model making and community discussions; we aim to formulate a range of ideas which can inspire future development of the site.

PRODUCTION

You will be tasked to build a precise 1:20 model of the existing gas tower. After an overnight stay with site visits and workshops in Brierfield, in groups, produce temporary and permanent design proposals to exhibit in the form of drawings and models. The output of your designs will be viewed by the local community and considered for future construction.

CRAFT

- Improving model making and design skills
- Leading community discussions
- Exploring building potential within latent spaces
- Gaining an understanding of creating successful temporary spaces
