## SKILLS

- #SKETCHING
- #WOOD WORKSHOP
- #WOOD ASSEMBLE SKILLS
- # 1:1 DESIGN REALIZATION
- #MODEL MAKING

## AGENDA

Team MANMUS is collaborating with Manchester Museum to design their new gift shop as part of the museum renovation. The live project intends to **re-use** existing furniture in the process to promote environmental awareness in the community. In EVENTS20, we will disassemble furniture, reprocess and assemble wood to build an **1:1** design realization module, which will eventually be used in Manchester Museum. A sophisticated site model will also be built to test several design components with scaled test models. Join the team and make your mark in this historical landmark in Manchester.
