

# MANCHESTER SCHOOL OF ARCHITECTURE

# RE-IMAGINE ACCRA

## AGENDA:

Marine Drive Project is a coastline development proposal in Accra, Ghana, which includes regeneration of the city's crucial area with significant landmarks relating to the country's independence. However, the project's scheme is confidential and there is little information released to the public. Through a series of interactive workshops and diverse analysis tools we want to explore mapping and create a short magazine in collaboration with Ghanaian students in order to increase the awareness of local people.

## TEAM:

Anya Tineva, Geoffrey Ma, Laura Toth,  
Samuel Okoh, Szymon Milczarek

## COLLABORATORS:

MMU, UOM, Students from KNUST and Central University  
(Ghana)

## SKILLS:

Collaboration with Ghanaian architectural  
students, Photoshop, Indesign, QGIS, Modelmaking,  
Map analysis
