

MANCHESTER SCHOOL OF ARCHITECTURE

Holy Name Church opened in 1871. The roof of the church accomplished with the innovative creation of the vaulted roof from local cheap materials, like hollow terracotta pots, which make the structure much lighter. We focus on the presentation of the '**pot vault**' on the roof and use visual methods (**model, booklet, and video**) to show the **high-tech church roof** and its **history** so that society could better understand the church and students could learn about architecture and social **heritage**.

Agenda

You will learn these skills	Team work	Revit Rhino	Drawing	Premiere Lumion	Heritage
		Moldelling	Photoshop Illustrator Indesign	Video	Lecture

Collaborator

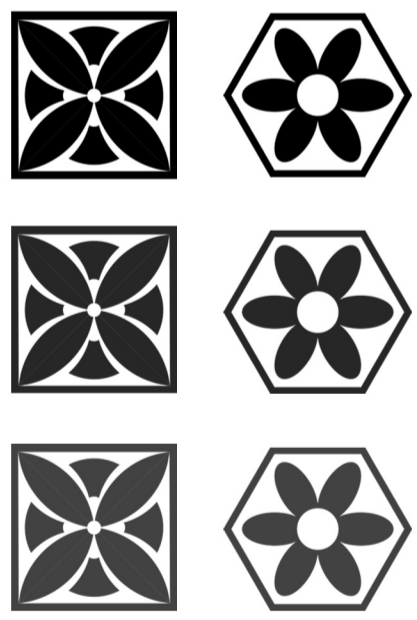

Jesuits in Britain

The Jesuits, also known as the Society of Jesus, are an international religious order of men within the Catholic Church. Jesuits take vows of poverty, chastity and obedience, and live together in community.

Victorian High-tech Church Roof

Team

- Linyu Li [CPU&Ai]
- Shitian Lin [CPU&Ai]
- Xinbo Wang [&architecture]
