

MANCHESTER SCHOOL OF ARCHITECTURE

AGENDA:

A live project investing in the local community of Beech Road Park creating a gardener's work space and storage facility, using sustainable materials. The project will involve working through design processes with client participation with the aim of delivering a feasible and realistic design and the potential of it being built in the future.

SKILLS:

Software skills in SketchUp, Photoshop and InDesign to co-create a 'how to build' document.

Speed sketching proposals and presenting ideas to a real client.

Exploration of sustainable materials and construction methods.

COLLABORATOR:

Friends of Beech Road Community Group. A group of local people who are focused on the maintenance and enhancement of Beech Road Pocket Park in Chorlton.

CO-ORDINATORS:
