Connect.

Agenda

SPIN is a charitable organisation tackling the issues of homelessness and poverty. Whilst providing homeless people with food and shelter, SPIN also offers a variety of support to help its residents develop new skills. The programme enables vulnerable people to regain confidence and independence as well as introducing them to a supportive community. Our role will be to design and produce a prototype model for a multifunctional pod within SPIN's grounds. The pod will promote conversation and activity between the residents and volunteers, and provide them with a quiet place to reflect.
