

# MANCHESTER SCHOOL OF ARCHITECTURE

## AGENDA:

The aim of the event is to design a speculative architecture course for the next generation of architects. We will test the course in collaboration with The Smallpeice Trust, an engineering charity that provides opportunities for teenagers. We will draw on our range of experiences of architecture school to encourage 16-18 year olds to apply for and develop skills for an architecture degree. This will start a conversation between MSA and the collaborator to establish an engaging annual summer course.

## TEAM:

Valentine Lezius  
Andrea Nobrega  
Emma Lewis  
Elise Colley  
Joe Copley  
Grace Yu

## SKILLS:

Adobe Suite - Indesign /  
Photoshop  
Portfolio Prep /  
Presentation skills  
Organisation and Management  
Model Making - Workshop  
Vertical Collaboration  
Sketchup  
AutoCAD
