

FORGOTTEN CITIZENS

WOULD
YOU
SLEEP
HERE?

Agenda

Homelessness is Real. Raising awareness in society is vital. It is a significant and continuing problem and Manchester is considerably affected by the issue. Despite this, local and national authority continue to fail to address the problem, with charities increasingly relied upon to combat poverty. Working with WOAAH and Cornerstone, a day centre providing help to vulnerable adults, we will be producing proposals for the redevelopment of the site whilst looking at new ways to tackle homelessness.

Skills

Students will engage with mapping and analysis skills as well as various design approaches and relevant softwares. We will also explore the causes and implications of homelessness in Manchester.

Team Members

Evie Richardson	Lon Y Law
Fara Amjad	Sing Hong Chau
Jake Greenall	Tom Craven
