Re-Shaping Marple

TEAM:

Dilan Vithlani
Jack Rintoul
Juliet Sara Tremble
Kefei Qiao
Keyan Li
Xiaoxuan Zhang

SKILLS:

Urban Planning
AutoCAD
Digital Modeling
Rendering
Live Discussions

COLLABORATORS:

Joe Jessop
- Marple Civic Society

GT3 Architects

AGENDA:

Marple is a historic town in the Stockport Council region. People are proud of their historic home, but it is missing that defining centre piece which really captures the sense of place. It has been determined the missing piece is a community hub which will be built in the middle of the Memorial Park, making the most of the amazing views. This project could be the catalyst for further development in Marple; our collaborator is hoping the project will have a 'ripple effect.' This project will involve all of the fundamentals of architecture from building design, urban design to landscaping. This is a real opportunity for change in Marple in what is a live project!
