

MANCHESTER SCHOOL OF ARCHITECTURE

Archikids: On The Move

Agenda

We are Archikids - a student led team working collaboratively with TASC to develop an exciting mobile marketplace for creativity and educational based activities in the Manchester area. We will be designing a series of innovative workshop pods that aim to teach and develop children's creative skills through a series of drawings completed by kids in the local area and presenting our ideas back to the community.

Skills

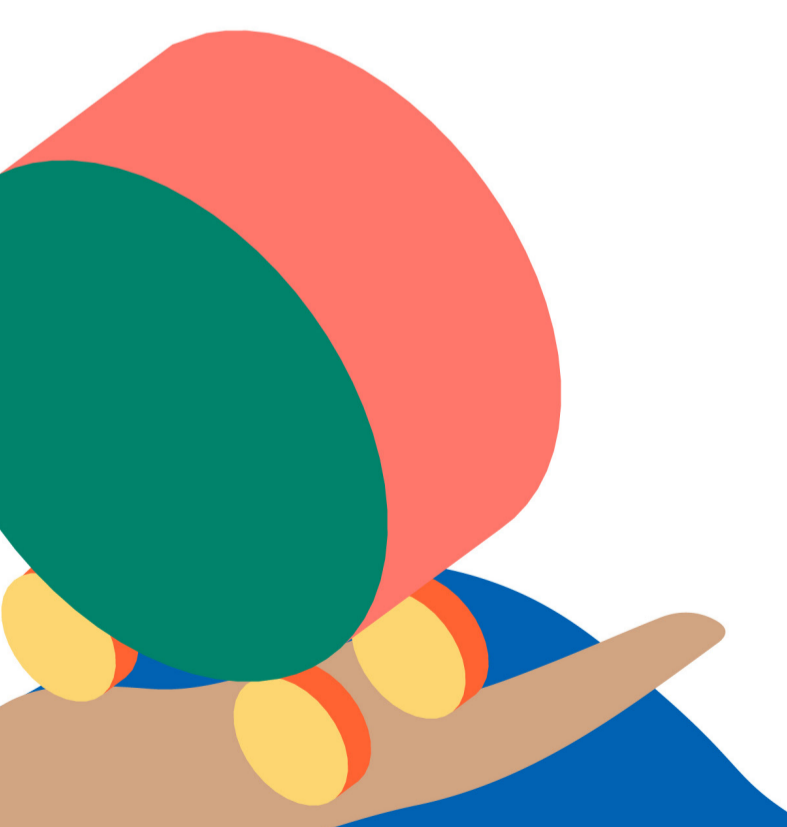

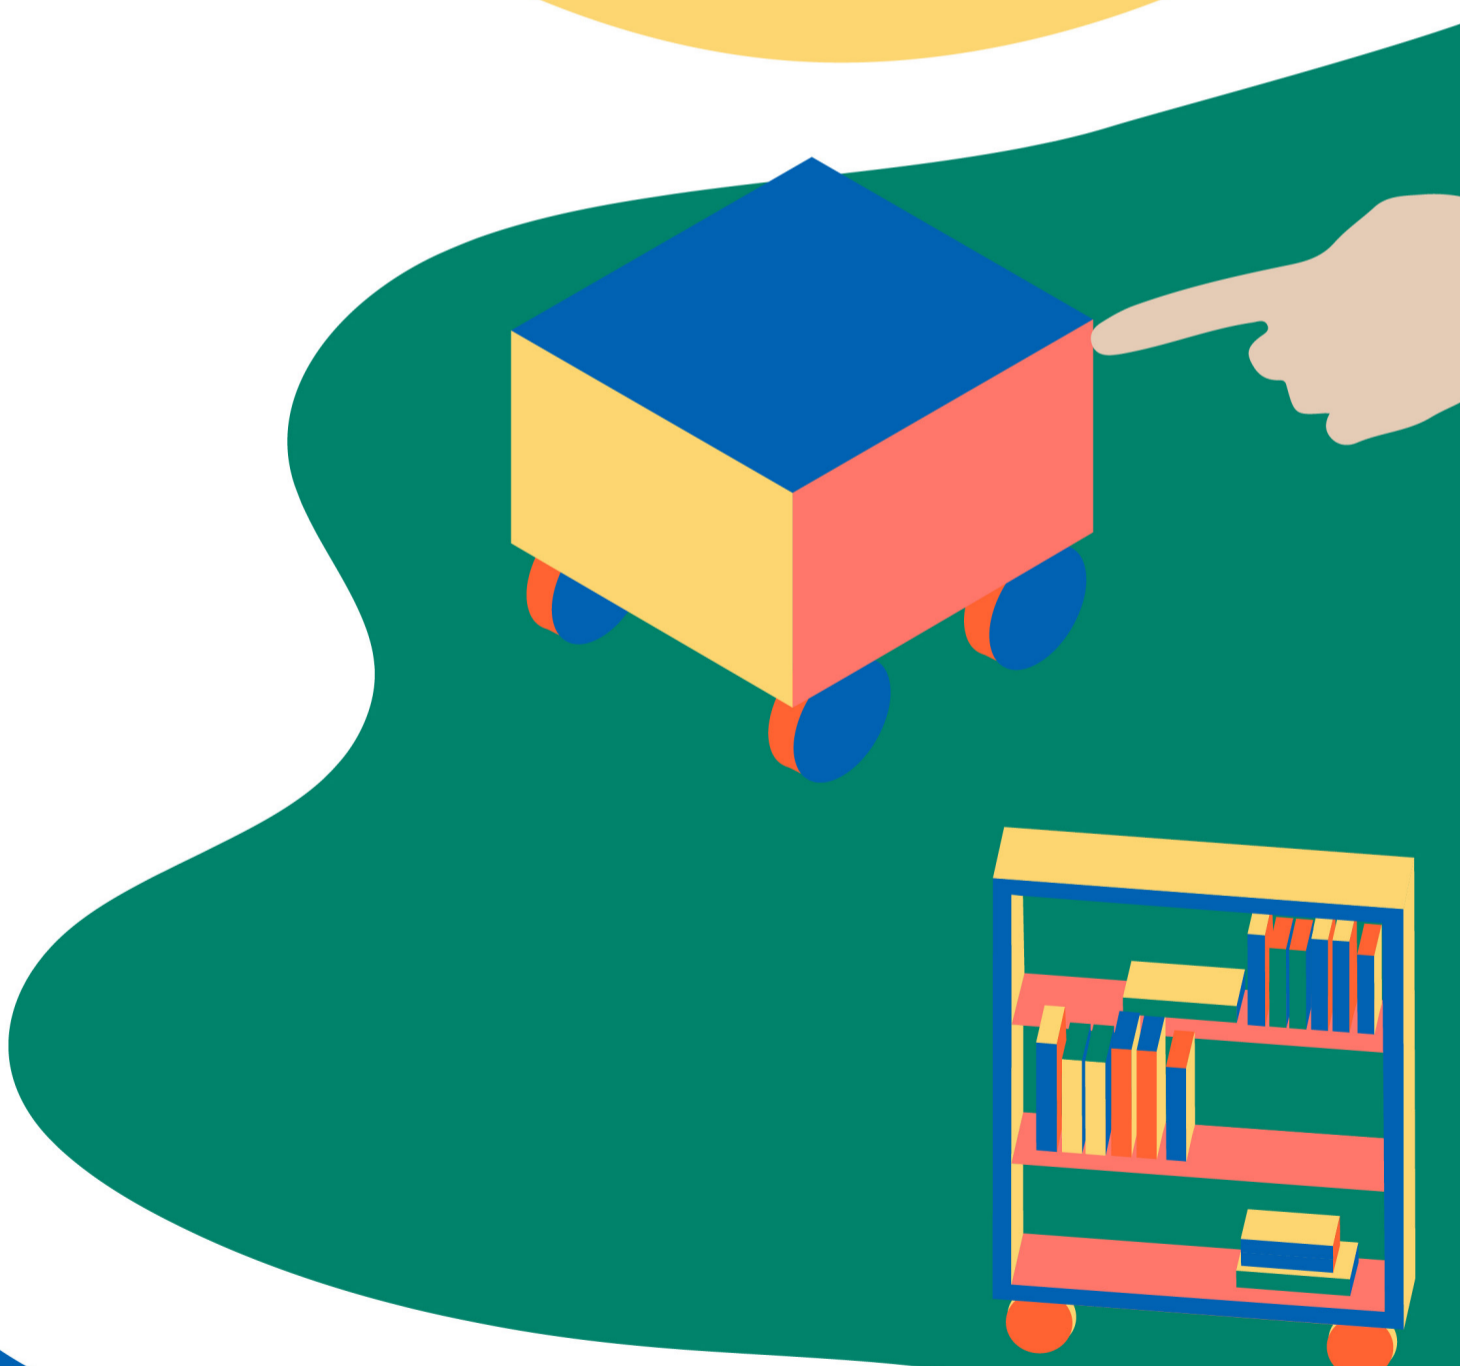

Learn and develop skills including visual representation, sketching and model making. Students should be enthusiastic, patient and have the ability to provide excellent communication with all ages.

Collaborators

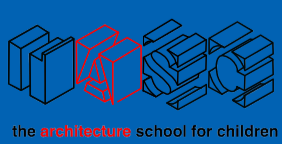

The Architecture School for Children (TASC)

The Team

Athena Pantazis
Bethany Stewart
Jordon Wilkinson
Millie Evans
Wendell Lu
Wiktoria Nowak
