

MANCHESTER SCHOOL OF ARCHITECTURE

INSPIRE BRADFORD

AGENDA

In live collaboration with Bradford Civic Society, Inspire Bradford focuses on the heritage area of Bradford's city centre, Little Germany. With an emphasis on building reuse and retrofitting, the project encourages our team to explore through a variety of scales as we consider the adaptation of existing buildings. Through the development a masterplan for the site, our team will work collaboratively to investigate and understand the area of Bradford, consider relevant precedents and create a design proposal that creates a 'Sustainable District'.

SKILLS

Creating master-planning solutions for the area, the team will develop skills in building reuse which are becoming increasingly important. Exploring the urban grain and the smaller details of a building's fabric, we will study site analysis, concept design and spatial coordination.

COLLABORATOR

Bradford Civic Society

TEAM

*Alexandru Munteanu
Catherine Zena Parsons
Diana Ioana Ursachianu
Jonathan Barker
Jordan Hin Ho Wong
Tania Islam*
