

# MANCHESTER SCHOOL OF ARCHITECTURE

# CONNECTED COMMUNITY

## AGENDA:

We are running a concept design competition to design a community centre to connect the residents of Hopton Court to one and another and the greater community. Throughout the MSA Live Connected Community will be engaging with the clients taking on board their needs and coming up with sketch scheme designs. These designs will be presented to the client and will feed into a real-life future scheme at Hopton Court.

## SKILLS:

To be immersed in a safe real-life environment preparing for practice, by engaging with the client and the early RIBA stages. Learning how to design for aging in place and community projects.

## PARTNERS:

GM Savers  
On Top of The World  
Hopton Court Residents

## TEAM:

Anna Lavery  
Hannah Byrom  
Jack Whitehouse  
Joseph Cox  
Tong Gao  
Wenze Xie  
Yuxi Yang
