

MANCHESTER SCHOOL OF ARCHITECTURE

RE-USE

AGENDA

This project, in collaboration with Purcell architects, seeks to question the **alternative possibilities** for our throw away society.

With engagement from expert **guest speakers**, the architect, and a team of MArch students, the task will be to work towards developing a template for how to **re-use**. A particular focus is on how the MCR Town Hall can reduce the volume of its 'waste' going to landfill. Ultimately, the challenge will be to **design** an exemplar solution for how the industry can manage its waste problem.

SKILLS

For this project you will acquire:

- How to design with existing buildings
- Alternative methods of documentation

Helpful prior experience:

- Adobe, Illustrator + Photoshop
- Model Making/Sketching
- Are you a Graphics WIZZ???
- Research Topic Aware

MAATI • JORDAN • BECCA + PURCELL
ENIS • JACK • ISMAEL • ARCHITECTS
