Colour the City's project is to design a colour-in postcard and map booklet for Invisible (Manchester) to raise funds for their lost revenue over the past year due to COVID19. The colouring booklet will include hand drawings of different places around Manchester in coordination with the tour guides and their routes. The idea is to see the city through 1,000 different eyes. You will be providing a design solution to Invisible (Manchester)'s funding and loneliness concerns.

SKILLS

You will enhance your design skills through urban sketching, graphic design and Adobe softwares. Your team work and time management abilities will be tested, with the opportunity to do some marketing.
